Imagine..

You're working in one of these industries:

Manufacturing

Logistics

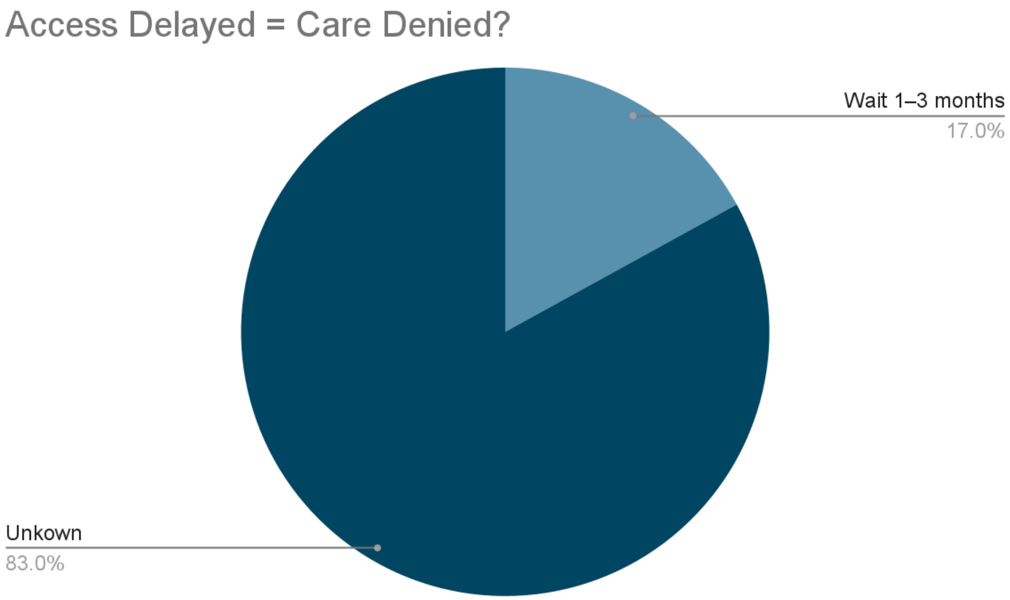
Public Service

The Problem

Burnout and increasing barriers to accessing timely, affordable primary care.

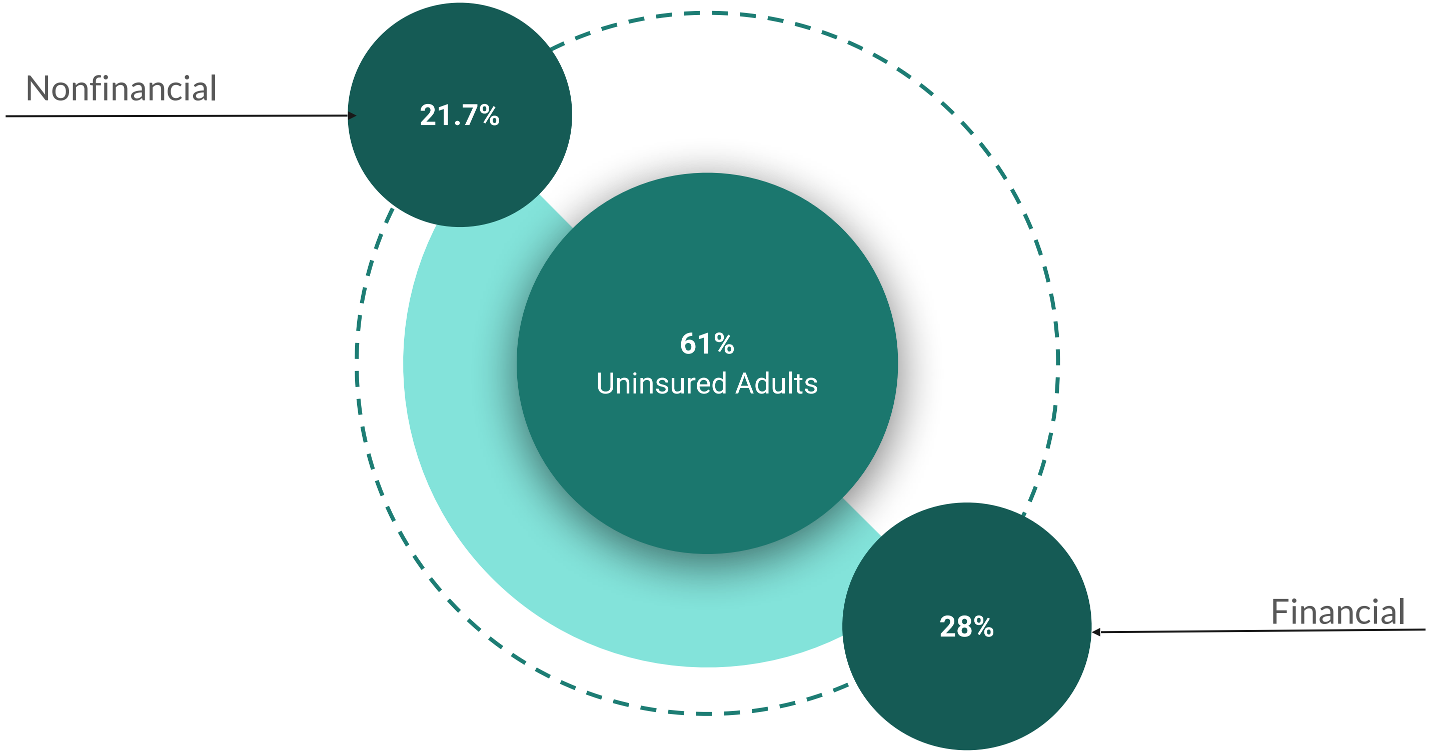
- Access Delays
- Care Avoidance
- Employer Burden

The Problem - Access Delays



- 38 days average wait time
- 40% of Americans say wait times are ‘longer than reasonable’

The Problem - Care Avoidance



The Problem - Employer Burden

$1.3 trillion

Projected spend on health benefits in 2024 by U.S. employers.

$8,435 for coverage

The average annual premium for employer-sponsored health insurance.

The Bottom Line

Despite this investment, many employers lack insight into the quality of care purchased, leading to potential overspending on low-quality healthcare services.

Common Obstacles of Traditional PCPs

Obstacle	What Patients/Employers Experience
Limited Access	Long wait times (7–30+ days), short visits (7–12 mins)
Insurance Complexity	Surprise bills, denials, co-pays, paperwork
Fragmented Care	No coordination between providers or employer insight
Overworked Providers	Burnout, low availability, high turnover
Low Utilization	Many employees don’t even use their PCP benefits

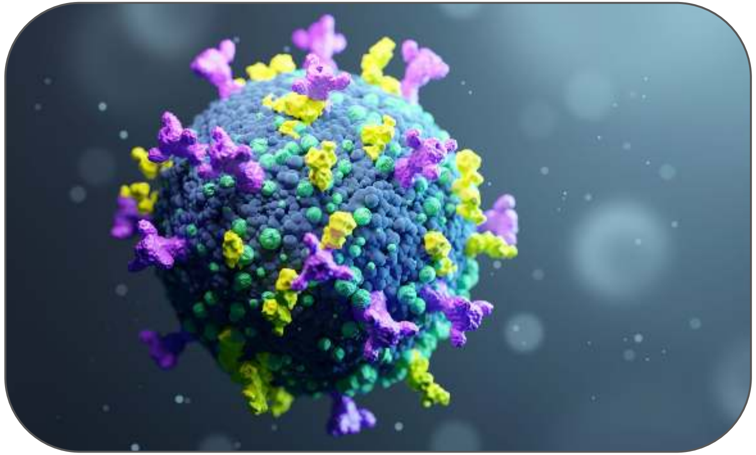
Why This Problem Demands Attention



Looking at the past

Looking into the future

The Solution

ThriveClinic
Workforce Health. Reimagined.

Industry Specific Direct Primary Care (DPC) Model

Onsite Care Teams

Modular Clinics

How does a DPC model differ?

Traditional PCP	ThriveClinic Solution
Wait times (avg. 19 days)	Same-day / next-day visits at work
Short appointments	30–45 minute visits = deeper care
Billing stress	Flat-fee, no co-pays, no surprise bills
Limited hours / access	Modular, onsite, AND virtual care
No employer insight	Real-time employer dashboards (aggregated + de-identified)
Burnout-prone model	Smaller patient panels (max ~350), no billing admin for providers
Underused benefits	Proactive outreach, wellness integration, high trust via access

Workforce Health. Reimagined.

How ThriveClinic brings Value

For Employees = Higher Satisfaction

Fast, reliable access to high-quality primary care—on-site, near-site, or virtual—without the wait times or financial barriers typical of traditional healthcare.

Services are aligned with work demands and shift schedules, ensuring care is convenient, relevant, and impactful.

For Employers = Lower Cost

A predictable, cost-effective healthcare solution that improves workforce health, reduces absenteeism, and delivers measurable ROI.

Tailored specifically to the needs of essential industries like manufacturing, logistics, and public service.

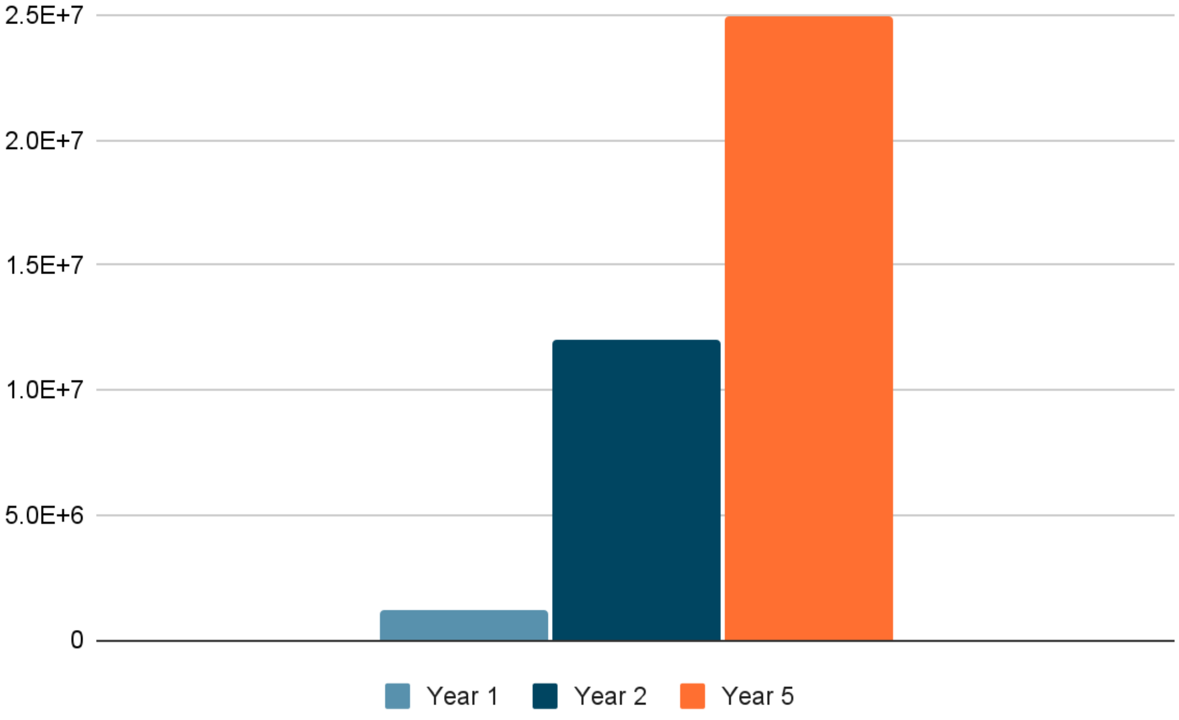
Path to Profitability



ThriveClinic
Workforce Health. Reimagined.

Year 1 Projections

- 10 employer contracts @ 125 employees each
- Yearly revenue: 10 x 125 x $80 x 12 = $1,200,000
- $70,000 Operating Income

ThriveClinic
Workforce Health. Reimagined.

Offerings and Costs Break Down

Annual Revenue	**$ 1,200,000.00**	
Cost of Care Team & Staffing		$ 700,000.00
Clinic Infrastructure & Mobile Units		$ 250,000.00
Tech Platform & EMR		$ 120,000.00
Outreach, Onboarding, Education		$ 60,000.00
Total Expenses	$ (1,130,000.00)	
Operating Income	**$ 70,000.00**	

ThriveClinic
Workforce Health. Reimagined.

Year 2 Projections

- 50 contracts (~12,500 employees)
- Expansion into mental health, and reporting tools ($100 per employer)
- Annual revenue: $12M–$15M

Year 5 Projections

- Multi-year city and school district deals (increased predictability)
- Optional SaaS-style reporting products (increased profitability)
- Scaled to other industrial hubs (increased scale)

ThriveClinic
Workforce Health. Reimagined.

Future Growth Strategy

- Integrate behavioral health and occupational therapy by Y3
- Launch AI-driven member app for personalized prevention plans
- Expand to other industries after Y5
