PROBLEM

Parents want to pack lunches that are healthy.

filling

fun

To do this they have to plan meals.

budget

list ingredients

grocery shop

prep ingredients

cook meals

pack

PROBLEM

Current options are outdated, unhealthy, or lack variety.

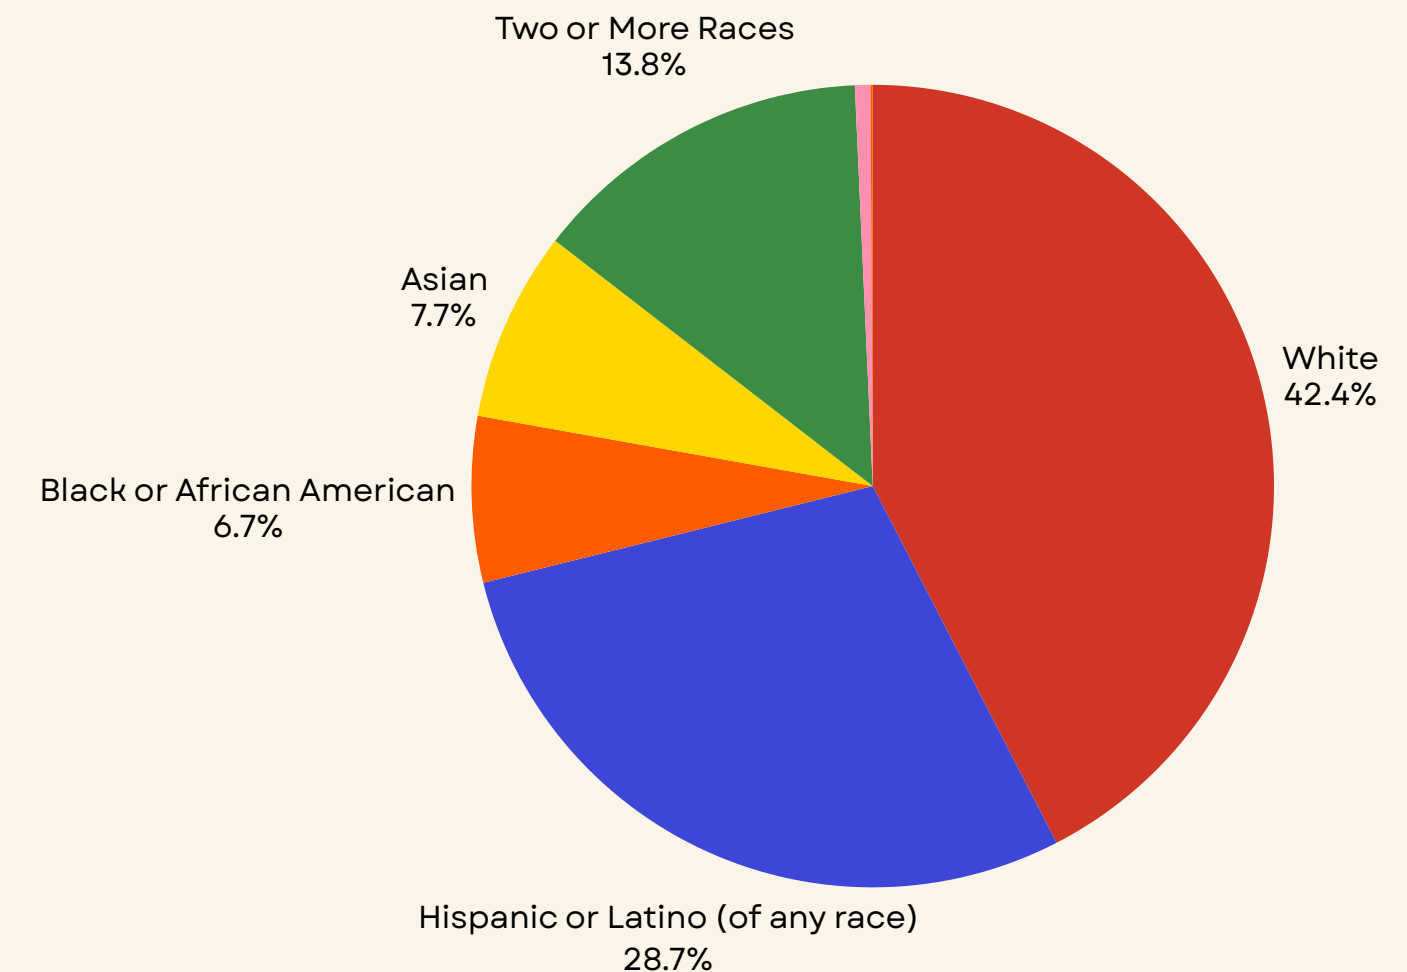

INGREDIENTS: COOKED HAM - WATER ADDED - CHOPPED AND FORMED - SMOKE FLAVOR ADDED (HAM, WATER, CONTAINS LESS THAN 2% OF SODIUM LACTATE, SALT, MODIFIED CORNSTARCH, POTASSIUM SALTS, SODIUM PHOSPHATES, SUGAR, SODIUM DIACETATE, SODIUM ASCORBATE, SODIUM NITRITE, FLAVOR, SMOKE FLAVOR); **SWISS PASTEURIZED PREPARED CHEESE PRODUCT** (MILK, WATER, MILK PROTEIN CONCENTRATE, MILKFAT, WHEY PROTEIN CONCENTRATE, WHEY, SODIUM CITRATE, SALT, PART-SKIM MILK, LACTIC ACID, SORBIC ACID AS A PRESERVATIVE, SODIUM PHOSPHATE, ENZYMES, CHEESE CULTURE, WITH SUNFLOWER LECITHIN ADDED FOR SLICE SEPARATION), **CONTAINS: MILK; CRACKERS** (ENRICHED FLOUR [WHEAT FLOUR, NIACIN, REDUCED IRON, THIAMINE MONONITRATE, RIBOFLAVIN, FOLIC ACID], VEGETABLE OIL SHORTENING (CANOLA OIL AND/OR FRACTIONATED PALM OIL, AND/OR SOYBEAN OIL, AND/OR PALM OIL), SUGAR, CONTAINS LESS THAN 2% OF SALT, BAKING SODA, SOY LECITHIN, NATURAL TYPE FLAVOR), **CONTAINS: WHEAT, SOY.**

Ingredients
Cherry Freeze Flavored with Other Natural Flavors Drink (Water, Citric Acid, Dipotassium Phosphate, Natural Flavors, Sucralose, Acesulfame Potassium, Gum Arabic, Ester Gum, D-Alpha Tocopheryl Acetate [Vitamin E], Pyridoxine Hydrochloride [Vitamin B6], Retinyl Palmitate [Vitamin a], Cyanocobalamin [Vitamin B12]); Pizza Crust (Enriched Bleached Wheat Flour [Flour, Niacin, Reduced Iron, Thiamine Mononitrate, Riboflavin, Folic Acid], Water, Vegetable Shortening [Interesterified Soybean Oil, Hydrogenated Soybean Oil], Contains 2% or Less of: Sugar, Salt, Yeast, Vegetable Gums [Corn Starch, Guar Gum, Xanthan Gum], Calcium Propionate [Preservative], Monoglycerides); Pizza Sauce (Water, Tomato Paste, Sugar, Modified Corn Starch, Salt, Highly Refined Soybean Oil, Citric Acid, Garlic Powder, Onion Powder, Spices, Preservatives [Sodium Benzoate, Potassium Sorbate], Xanthan Gum, Natural Flavor); Low-Moisture Part-Skim Mozzarella Cheese (Cultured Pasteurized Part-Skim Milk, Salt, Enzymes, Anti-Caking Blend [Potato Starch, Cellulose]); Smoked Uncured Pepperoni Made with Pork, No Nitrates or Nitrites Added Except for Those Naturally Occurring Nitrites in Sea Salt and Cultured Celery Extract (Pork, Sea Salt, Cane Sugar, Spice, Paprika, Cultured Celery Extract, Paprika Extract, Garlic Powder, Cherry Powder, Rice Concentrate, Spice Extract, Lactic Acid Starter Culture); Milk Chocolate with Puffed Rice Bar (Milk Chocolate [Sugar, Whole Milk Powder, Cocoa Butter, Unsweetened Chocolate, Lecithin [Soy], Vanilla Extract], Crisp Rice [Rice Flour, Sugar, Salt]).

PROBLEM

There are some healthier options, but the US is so much more diverse, we can do better!

Austin Population Demographics 2025

The Bump 2025 Future of Parenting Report shows...

90%

of parents are **focused on healthy eating**, with a rise in probiotic-rich and microbiome-supporting foods for kids.

65%

of parents **actively seek resources** to teach their children about **different cultures**.

United States Kids Food and Beverage Market is
expected to go from

\$ 57.02 billion in 2024

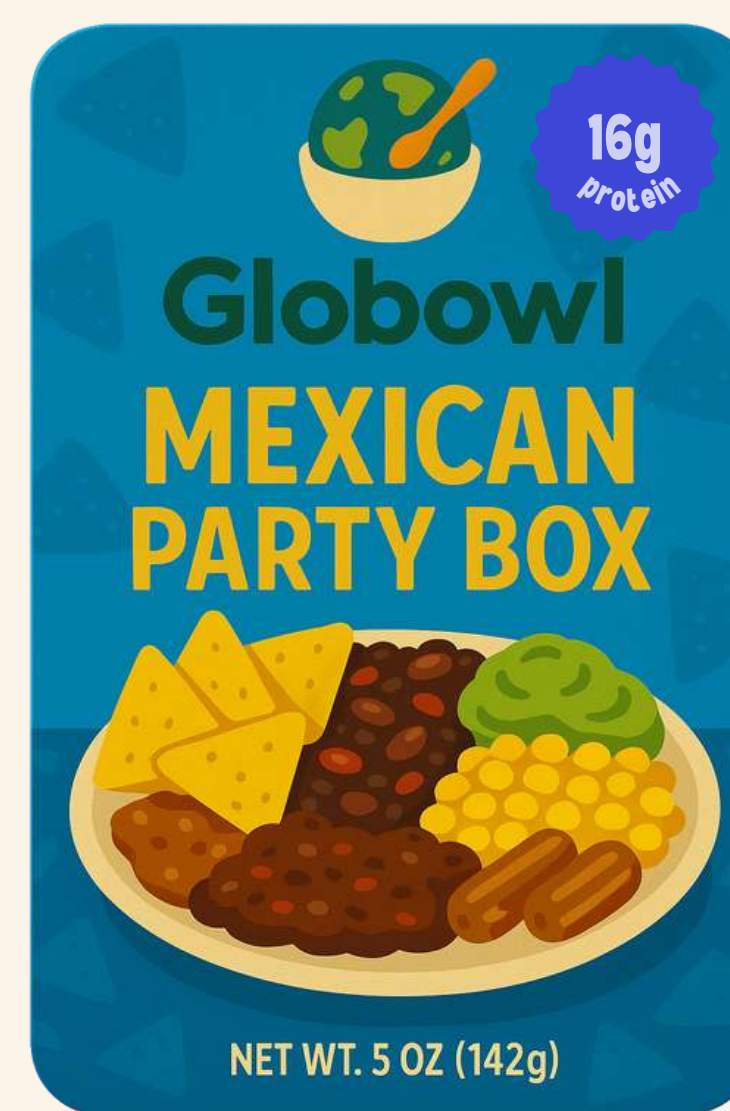

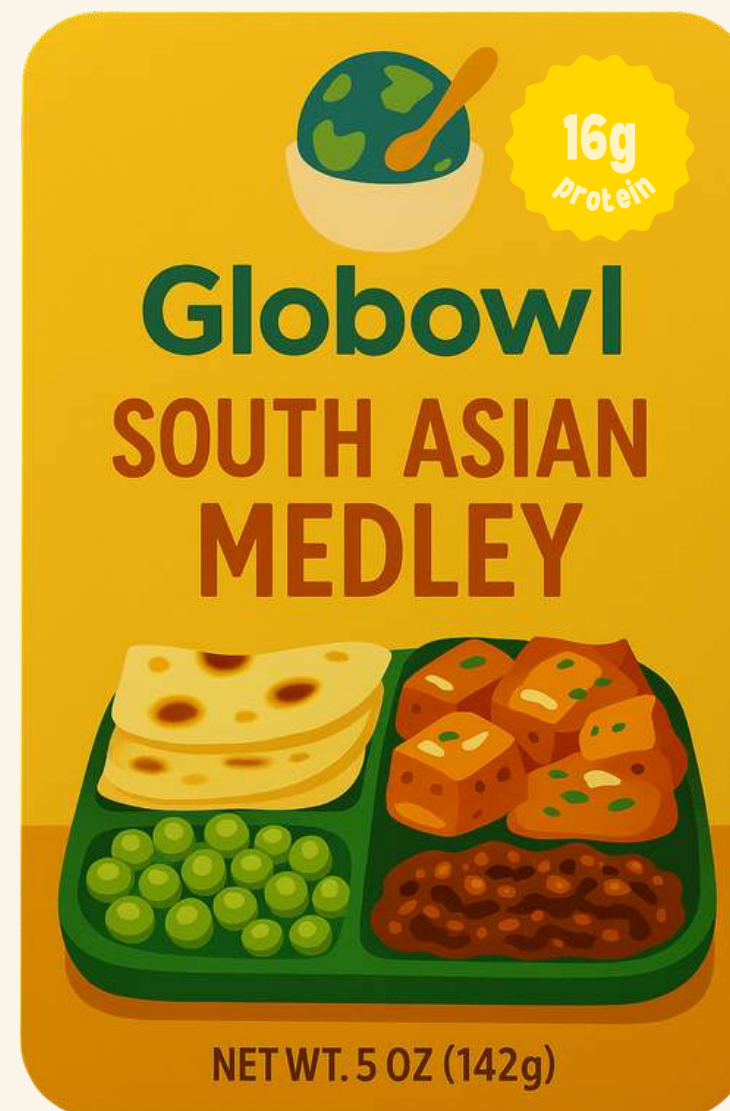

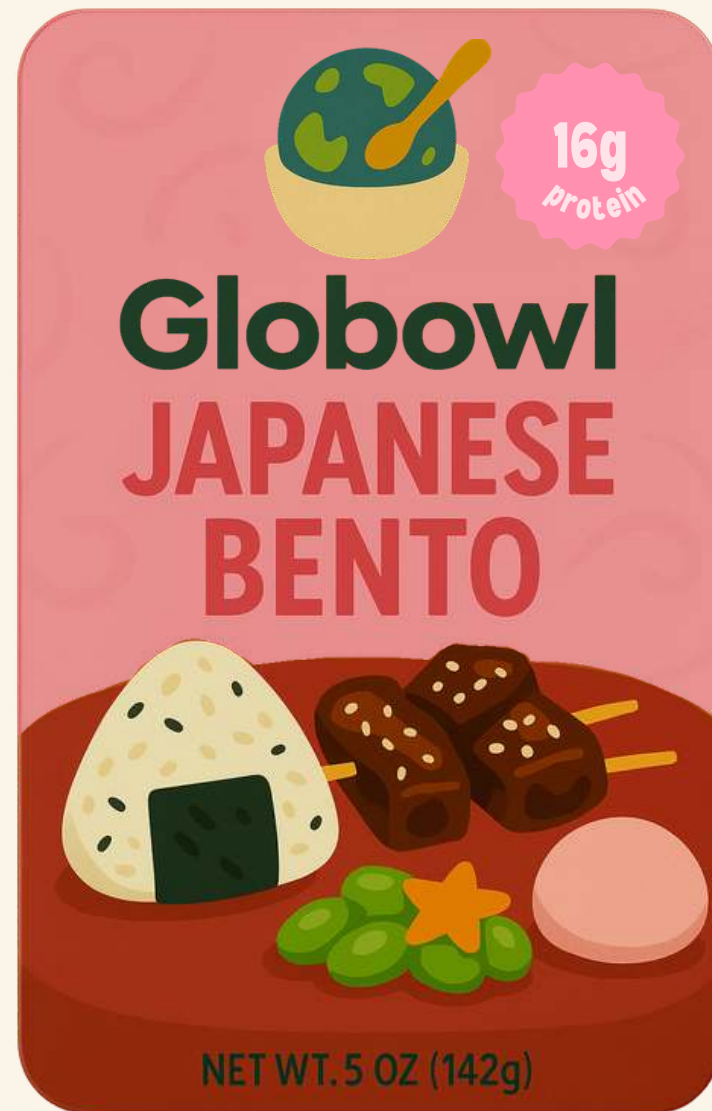

to

\$ 100.16 billion by 2033

with a CAGR of 6.46% from 2025 to 2033.

GROWTH STRATEGY

Price/box

\$6.99-\$7.49

Target Reach

1000 Families, 1 box/week
= 52,000 boxes

Est. Cost

\$5/box
= \$260,000

Est. Revenue

\$1.99-2.49/box
= \$363,480-\$389,480

Profit

~\$100K-\$130K

FIRST YEAR GOAL

Let's give kids better food— and parents a break.

\$135k for 12% Equity

Backmatter

https://miro.com/app/board/uXjVIDSkwW4=

Appendix

Target Reach

Market Size Assumption

Austin metro has ~2.3 million people.

Assuming 100K are parents of school-age kids.

If 20% are health-conscious, that's 20,000 potential early adopters.

Targeting just 10% of that = 2,000 families

Conservative estimate: 1,000 families in Year 1.

If each family buys just 1 box/week (could be higher), that's:

1,000 families × 52 weeks = 52,000 boxes/year

FIRST YEAR GOAL

Est. Cost (Without Overhead)

Component	Why this cost?
Ingredients (\$2.00)	Fresh, global ingredients (e.g., falafel, rice, veggies, dip, treat) – in bulk purchase
Packaging (\$0.75)	Durable, safe, possibly compostable tray + branded wrap
Fulfillment + Labor (\$1.25)	Packing, assembly, storage, logistics, handling
Shipping/Handling (\$0.50)	Local courier or last-mile delivery (or drop-off to stores/schools)
Marketing/Branding (\$0.50)	Stickers, inserts, customer engagement (like "Globo-passport")
Total Cost = \$5.00	Base Cost of Goods Sold (COGS) per kit

Est. Overhead

Category	Estimate	Notes
Licensing & Legal	\$5,000	Incorporation, food safety licensing, insurance, basic legal setup
Branding & Design	\$3,000–\$5,000	Logo, website, packaging design, marketing materials
R&D + Recipe Development	\$5,000	Ingredient testing, nutritionist input, packaging prototypes
Kitchen or Co-packing Setup	\$10,000–\$15,000	Renting commercial kitchen or setting up contract with a co-packer
Marketing Launch Budget	\$10,000	Website, email list, digital ads, sampling events, school outreach
Initial Inventory + Supplies	\$10,000–\$15,000	Ingredients, trays, inserts, labels (for first 5–10K boxes)
Staffing (Part-time help)	\$20,000–\$30,000	Hourly prep + fulfillment help, maybe one full-time early team member
General/Admin Expenses	\$5,000	Software, accounting, delivery management tools, etc.

\$68,000–\$85,000

Est. Use of Funds

Use of Funds	Amount
Year 1 startup overhead	\$68K-\$85K
3 months of operating runway	~\$25K-\$40K
Initial production ramp-up	~\$15K
Contingency buffer (10-15%)	~\$10K-\$20K
Total Ask Range	\$120K-\$150K

Est. Use of Funds

Total Addressable Market Estimate

U.S. has approx. 33 million households with kids under 18
Let’s conservatively assume 20M households with kids ages 4–12 (target age group)

Year 5 Reach Goal

Capture 0.5% of U.S. families with school-aged kids:
 $0.005 \times 20,000,000 = 100,000$ families

Metric	Value
Households served	100,000
Boxes sold (1/wk/family)	5.2 million/year
Revenue	\$36.35 million
COGS	\$26 million
Gross Profit	\$10.35 million

FIFTH YEAR PROJECTION

Est. Use of Funds

Total Addressable Market Estimate

U.S. has approx. 33 million households with kids under 18
Let’s conservatively assume 20M households with kids ages 4–12 (target age group)

Year 5 Reach Goal

Capture 0.5% of U.S. families with school-aged kids:
 $0.005 \times 20,000,000 = 100,000$ families

Metric	Value
Households served	100,000
Boxes sold (1/wk/family)	5.2 million/year
Revenue	\$36.35 million
COGS	\$26 million
Gross Profit	\$10.35 million

Lunchables pulled from national school lunch programs in US

Kraft Heinz cites weak demand for pre-packaged meals amid reports of lead and high sodium in supermarket kits

MrBeast’s ‘Lunchly’ Mold Scandal, Explained

Lunchly was created by YouTubers MrBeast, KSI and Logan Paul, but the packaged meal has been said to contain moldy cheese, with some creators exposing the contents on camera.

What Was The First ‘Lunchly’ Controversy?

Lunchly was framed as a slightly healthier alternative to Lunchables when it first launched, but those claims were quickly challenged by creators Rosanna Pansino and Doctor Mike.

Minecraft YouTuber DanTDM criticized the trio for “selling crap to kids who don’t know better than to trust the people who are selling it to them,” suggesting that the product launch was antithetical to the spirit of YouTube.

levisio...

What Is The Lunchly Mold Controversy?

Part of the pitch for Lunchly is that the product is “made with real cheese,” compared to the “cheese product” used in Lunchables.

Baking YouTuber and longtime MrBeast critic Rosanna Pansino recently posted a YouTube video titled “I tried Lunchly ... it was MOLDY!”

The title pretty much sums it up—in the video, Pansino opens a Lunchly kit to conduct a taste test only to uncover what appears to be mold inside the product’s real cheese.

What’s really in that Lunchables?

Example Ham & Cheese with crackers and cookie Ingredients: Over 50+

Chocolate sandwich Cookies - sugar, unbleached flour (wheat flour, niacin, reduced iron, thiamine, mononitrate [vitamin B1], Riboflavin [vitamin B2], folic acid), high oleic canola and/or palm and/or canola oil, cocoa (processed with alkali), high fructose corn syrup, cornstarch, leavening (baking soda and/or calcium phosphate), salt, soy lecithin, vanillin - an artificial flavor, chocolate.

Ham - water, sodium lactate, potassium chloride, modified cornstarch, sugar, sodium phosphate, salt, sodium diacetate, sodium ascorbate, flavor, sodium nitrite, smoke flavor

Pasteurized Prepared American Cheese Product - milk, water, milkfat, milk protein concentrate, whey, whey protein concentrate, sodium citrate, salt, lactic acid, sorbic acid, cheese culture, enzymes, oleoresin paprika, annatto, starch

Crackers - enriched wheat flour (wheat flour, niacin, reduced iron, thiamine, mononitrate, riboflavin, folic acid), vegetable shortening (soybean oil, partially hydrogenated cottonseed oil with TBHQ and citric acid), sugar, leavenings, salt, whey, soy lecithin, natural flavor, enzymes

Homemade Nutrition You Can Trust

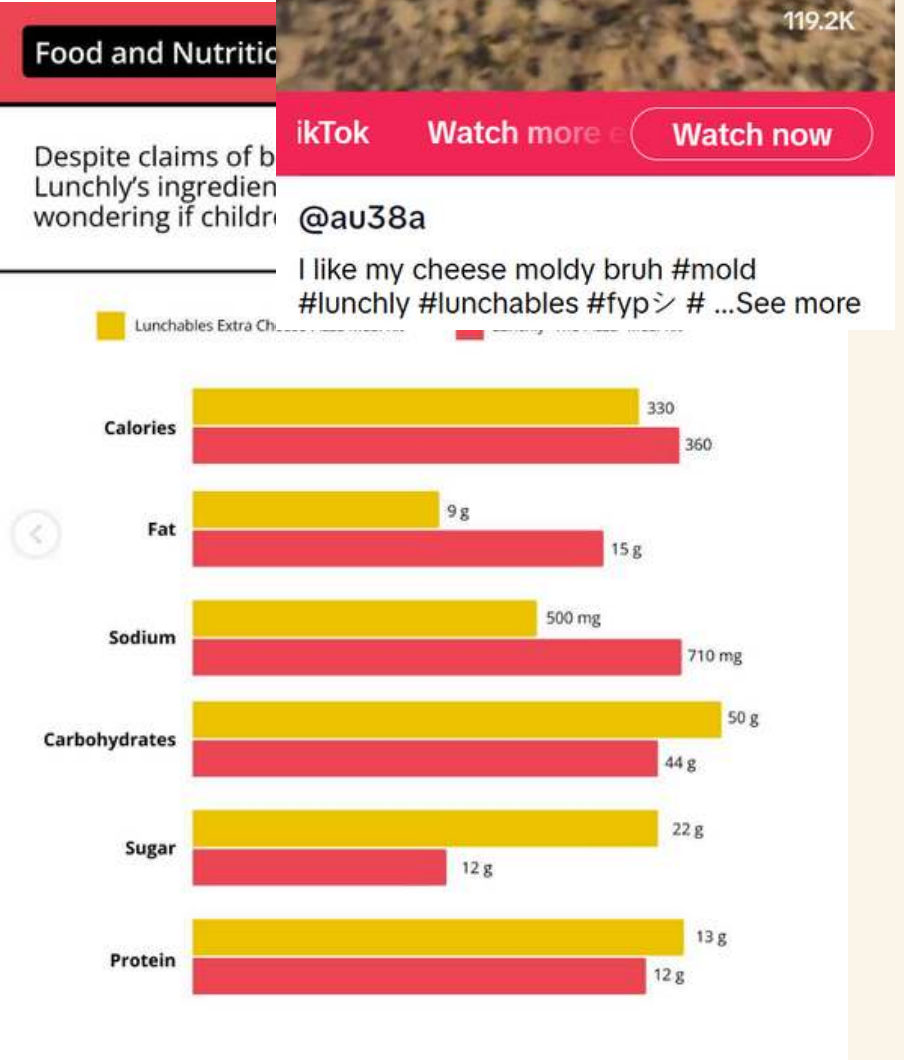

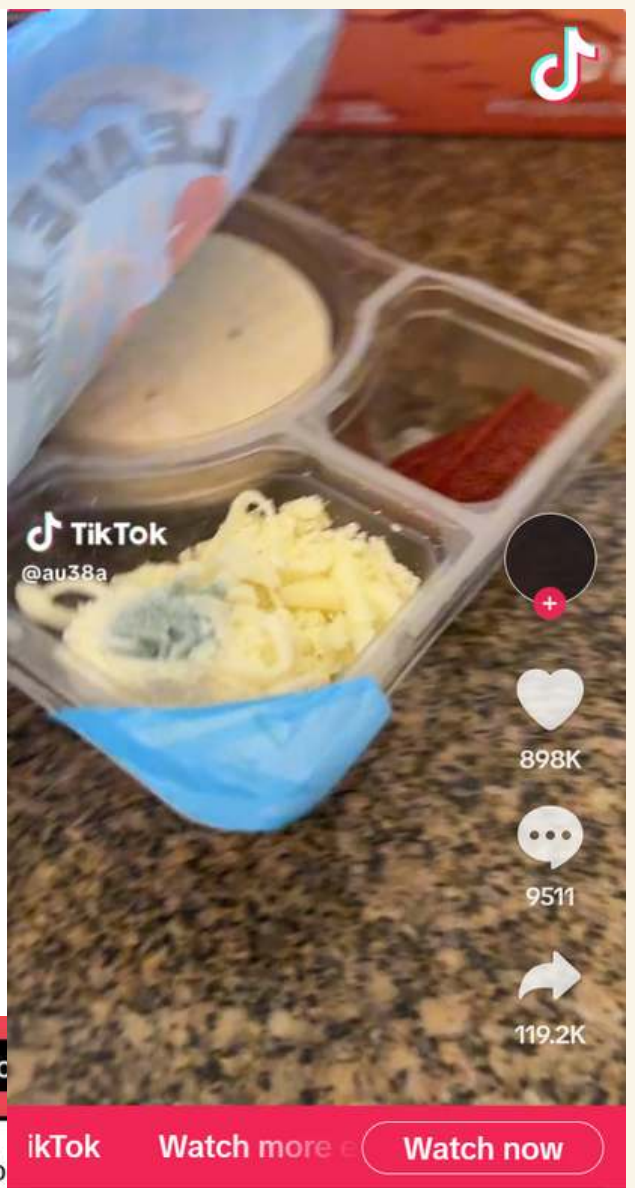

- ✓ Ham
- ✓ Crackers
- ✓ Cheese
- ✓ Cookie

Ingredients: Less than 20

Example Suspect Ingredients We Don’t Cook With

- ✓ High fructose corn syrup
- ✓ Food preservatives
- ✓ Partially hydrogenated oil
- ✓ Food additives
- ✓ Artificial flavor
- ✓ Natural flavor
