

Hello Sharks!

Krezia Savella | Heidi Ward

Lisa's Story

Lisa is a 25 year old woman, living in Austin Tx. Like the majority of Americans, Lisa grew up just following the decisions of her parent's about her health. Now that she is an adult, she has to take matters into her own hands, but has no idea where to start.

Lisa started making appointments for primary care, vision, dental ect. After some time, Lisa was caught up and doctors had given her a clean bill of health. But Lisa didn't feel much better or healthier. In fact, she felt even worse! **She hadn't seen her friends, she was tense from being behind at work, her apartment was a disaster, she was behind on rent, and she hadn't taken anytime for herself.** Overall, she was feeling pretty down.

She did a little bit of research, and discovered...

Healthd8

Improve their relationship and access to holistic preventative health service

Why HealthD8?

84% of millennials say they have experienced burnout at their current job, compared to **77%** of all respondents.

Focusing on the 8 dimensions of wellness can **increase productivity, reduce healthcare costs, and increase earning potential.**

87% of millennials and Generation Z'ers consider wellness programs as very important, so, medical practices need to integrate wellness programs to reach the majority of the current workforce.
