Medication Non-Adherence

Preventable Readmissions

1 in 4 hospital
readmissions are due
to missed medications.

Preventable Deaths

Nonadherence causes
125,000 deaths/year in
the U.S.

Preventable Costs

\$500B in preventable
healthcare costs

Current Market

AdhereTech

Smart pill bottle with built-in cellular and sensors

Expensive to Scale

MedMinder

Locked pill box with visual and audio alerts and remote monitoring

Stigmatizing & Bulky

HeroHealth

Automated countertop pill dispenser with sorting and alerts

Expensive & Big

TabSafe

Comprehensive med dispensing and monitoring stations

Complex & Expensive

Medication reminders can be beautiful, intuitive and effective – without requiring tech expertise or shame

Physical Sensors

Sense when a medication is taken

Digital Nudges

Sync with a family app for real-time nudges and peace of mind

Appealing Design

Can be placed in plain sight to keep medications front of mind

Visual Alerts

Visually alert users when they need to take a medication

Docent App Features

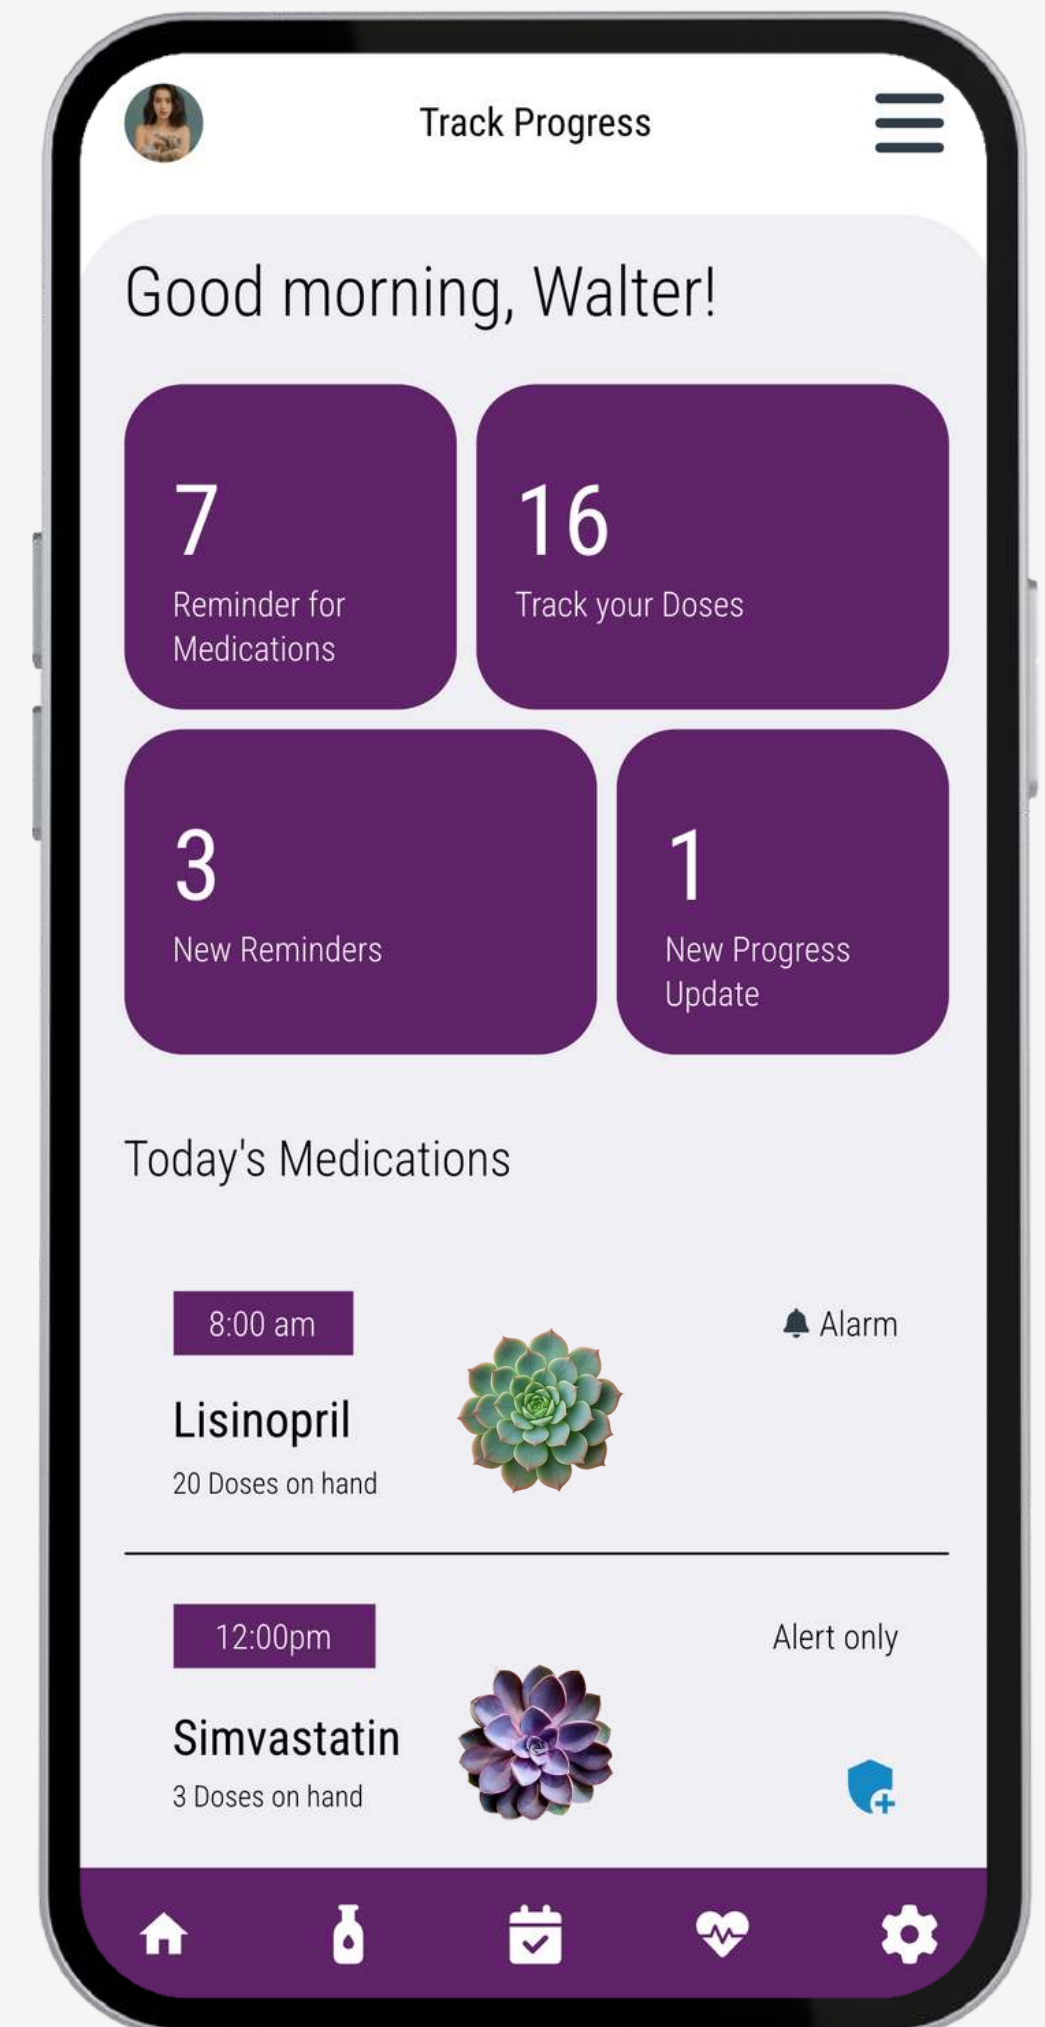

**Medication
Planning**

**Automatic RFID
Monitoring**

**Optional
Reminders**

**Missed Dose
Alerts**

**Dose Tracking &
Logs**

Why Docent?

Aesthetically Pleasing

Leave medications out to allow visual cues

Professional Set-Up Assistance

Nurses and case managers handle data entry

Simple to Use

Intuitive visual cues and app alerts are easy to understand

Blends In to Life

Not just another medical device

Clinical Insights

Evidence-based adherence assistance, plus logs for providers

Market Opportunity

Who We Serve

Main Segment:

- Older adults managing multiple medications at home

Key Influencers:

- Home health nurses - medication tracking setup
- Caregivers - emotionally invested & want peace of mind

Pain Points:

- Confusion about which meds to take and when
- Missed doses leading to ER visits or hospitalizations
- Caregiver burnout from constant reminders

Market Opportunity

Why They Choose Docent Health

Visual and digital medication guidance

Blends into the home

Reduces preventable hospital visits

Supports the whole care team

Scalable for health plans

Three Horizons

Year 1

PILOT WITH

& Beyond

DIRECT TO
CONSUMER

Y1 Pilot

in Partnership with Home Health

Recently discharged
from a hospital or
skilled nursing facility

Managing chronic
conditions, ex. diabetes,
heart failure, COPD

Aging in place with
support from
caregivers or family

On multiple
prescriptions, often 4+
daily medications

Home Health Pilot Results

75% acceptance
rate due to Home
Health nurses
assisting

40% reduction in
missed
medication doses

Per 1000 users:
90 fewer ER visits
25 fewer Re-
admits
\$483,000 saved

>10x ROI on
system-wide cost
avoidance

Cost Analysis

Year 1 – First 1000 Units

Physical product + amortized software development, packaging, and QA total \$87.76 per unit.

Subsidized sales to partner home health agencies in exchange for outcomes data, \$25 per unit.

Year 2 – 10,000 Units

Projected costs per unit = \$53.00

Wholesale costs at \$45 without data contracts

Year 3 – 50,000 Units

Projected costs per unit = \$36.50

Data contracts with new market segments only

Revenue Streams

Year 1 – Subscriptions

Total Users = 750

Adoption by tier:

25% on Connected @ \$4.99/mo = 188 users

15% on Care Circle @ \$8.99/mo = 112 users

Total Subscription Revenue in Year 1 = \$1945.00

Year 2 – Subscriptions

Total Users = 7500

Adoption by tier:

25% on Connected @ \$4.99/mo = 1875 users

15% on Care Circle @ \$8.99/mo = 1125 users

Total Subscription Revenue in Year 2 = \$19,470

Year 3 – Product & Subscriptions

- Total users: 30,000
- Product sales: \$1,260,000 at bulk discount price of \$42/unit
- Adoption by tier:
 - 25% on Connected @ \$4.99/mo = 7,500 users
 - 15% on Care Circle @ \$8.99/mo = 4,500 users
 - 10% on Clinical Link @ \$12.99/mo = 3,000 users
 - Total Subscription Revenue in Year 3 = \$1,402,200

Year 1

Pilot with Home Health

Partnerships + Channels

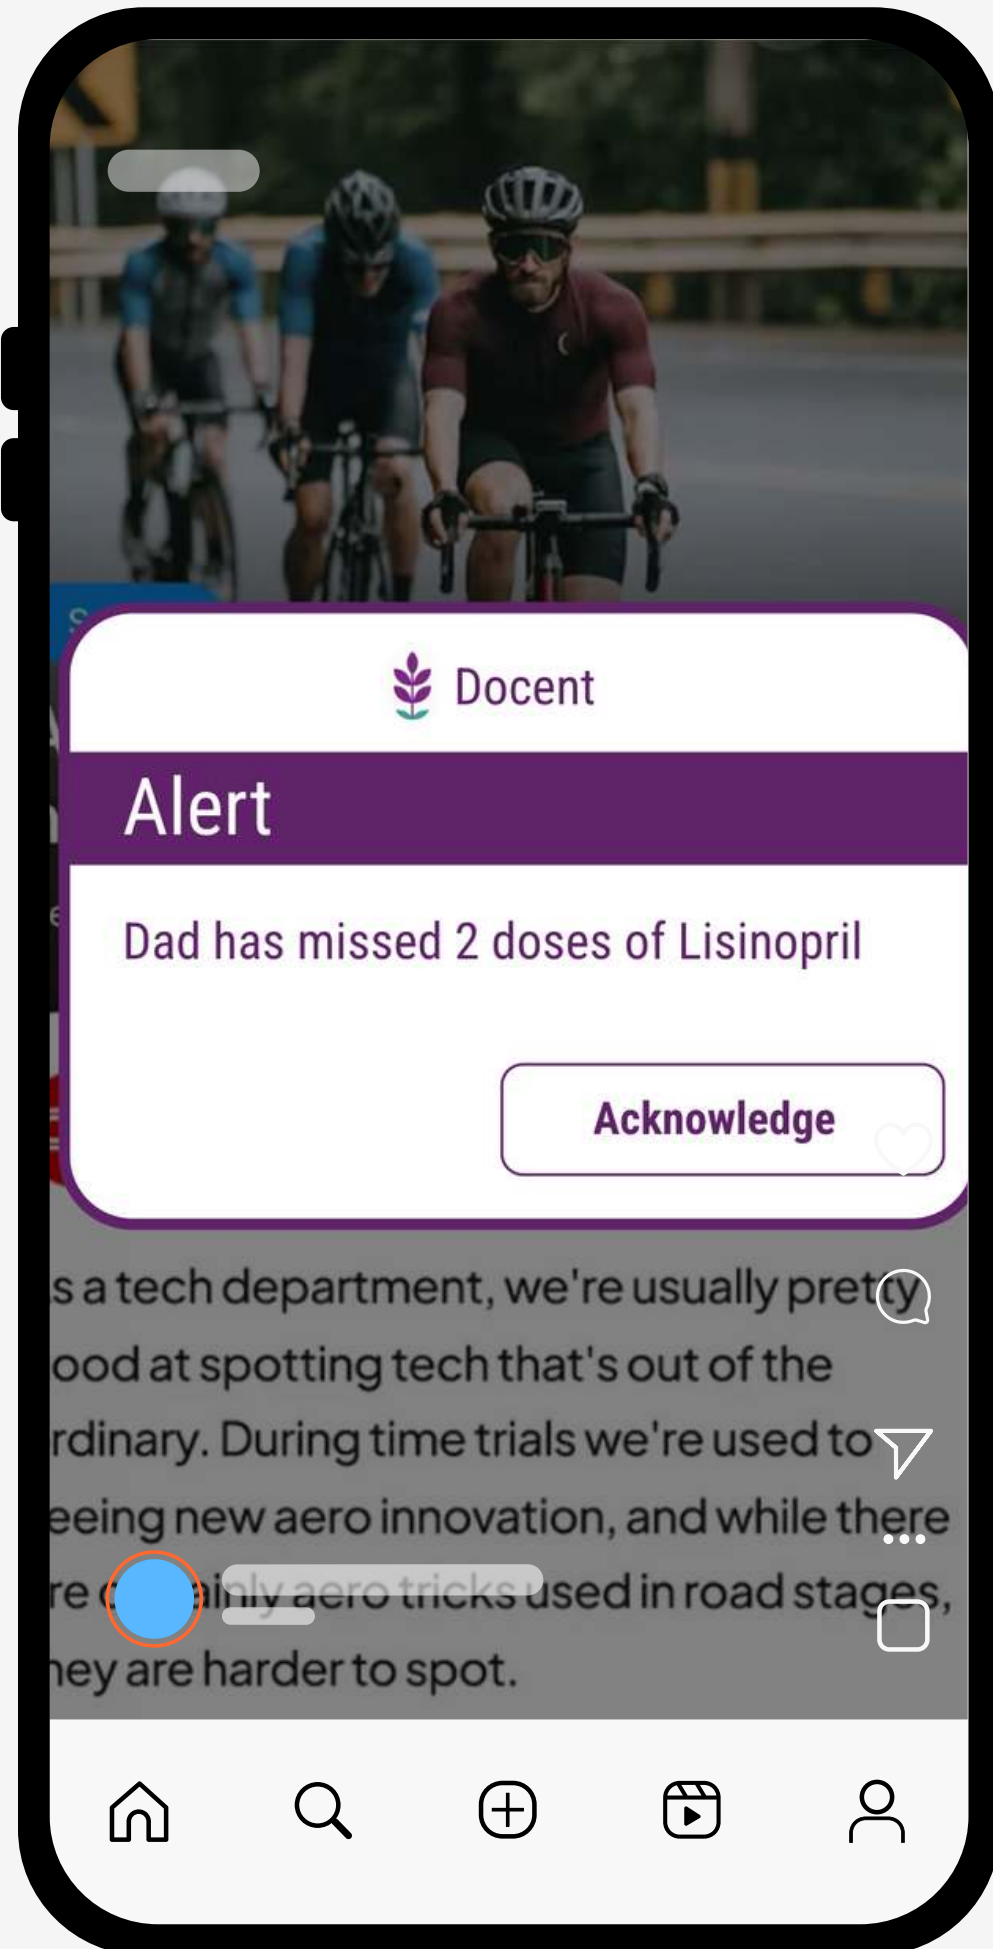

- Focus on Home Health agencies

Activities

- Manufacturing pilots
- App Development
- Data Analysis & Visualization
- Phone/Email Support
- Onboarding for Agency Nurses

Revenue Streams

- Subsidized pricing for agencies

Year 2

Scale with Home Health

Partnerships + Channels

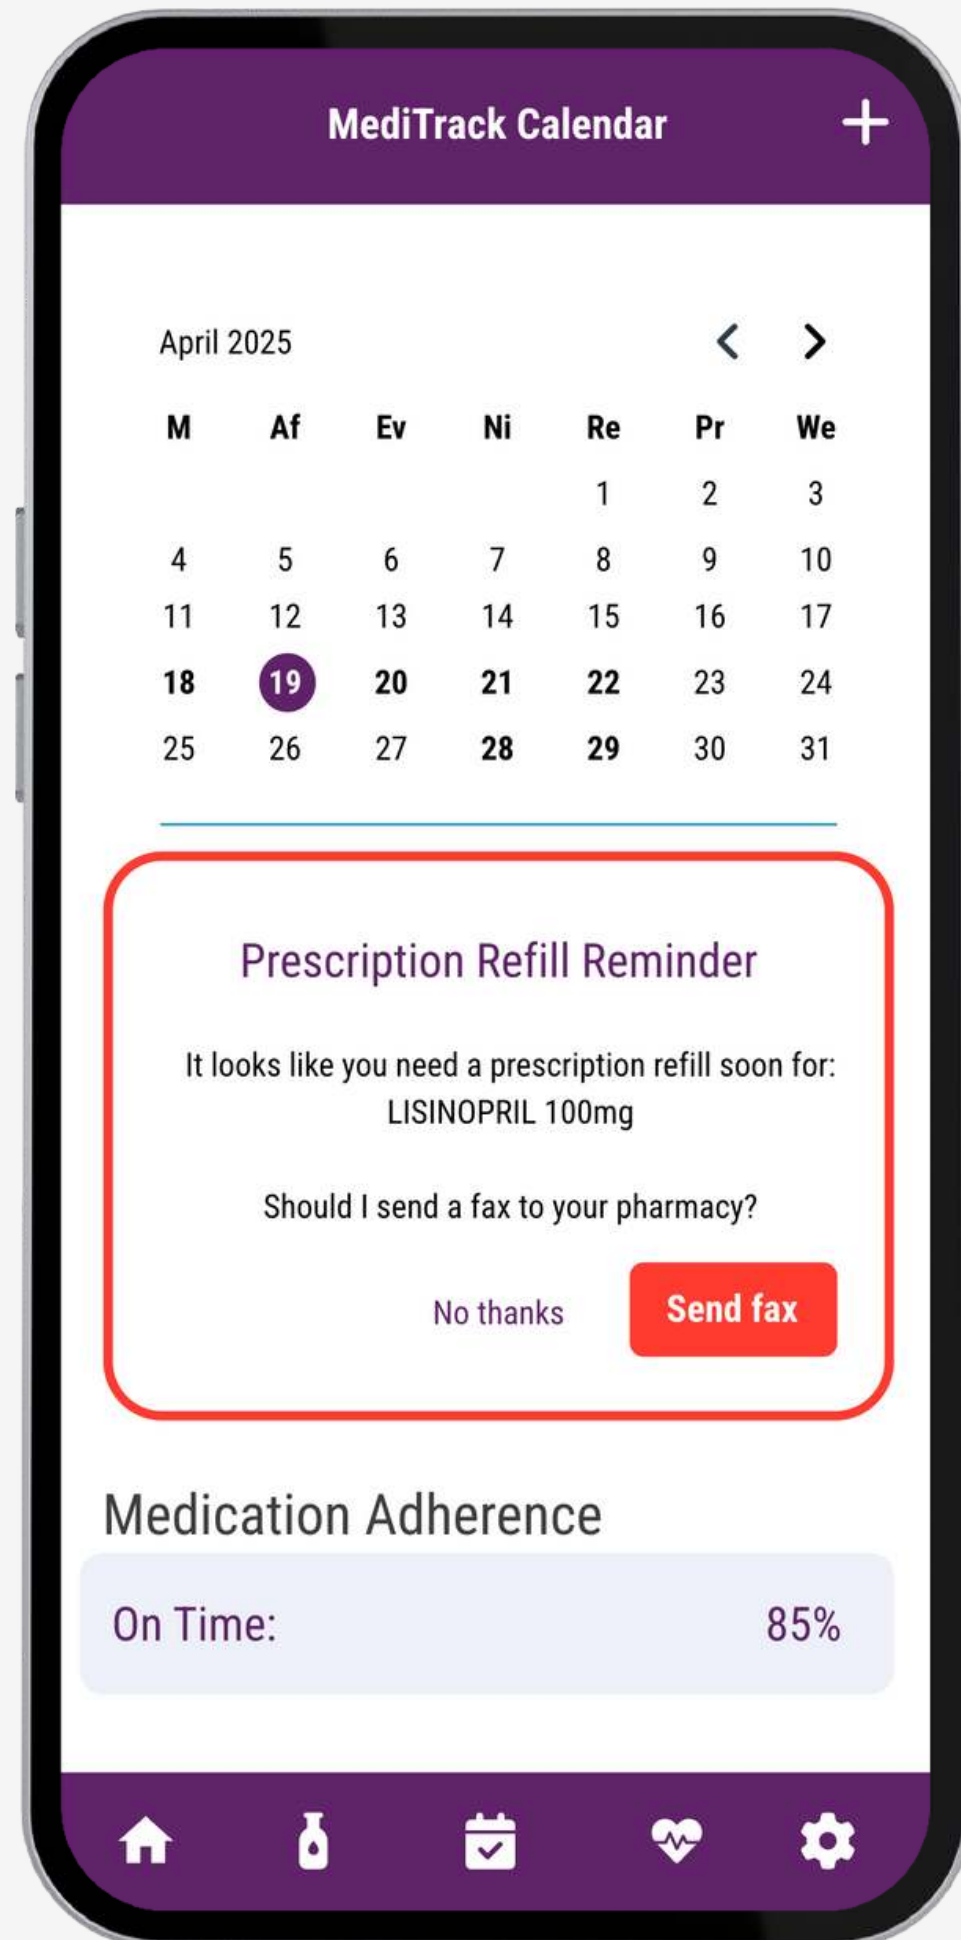

- Home health agencies – rewarding larger commitments with volume discounts

Activities

- Scaling production
- Analyzing data trends
- Building case studies
- Developing partner success management teams
- Feedback collection

Revenue Streams

- Volume-based pricing for agencies
- Optional DTC subscriptions

Year 3

Expand to Health Plans

Partnerships + Channels

- Expanding to value-based health plans and payors
- employers
- DTC caregivers with premium needs

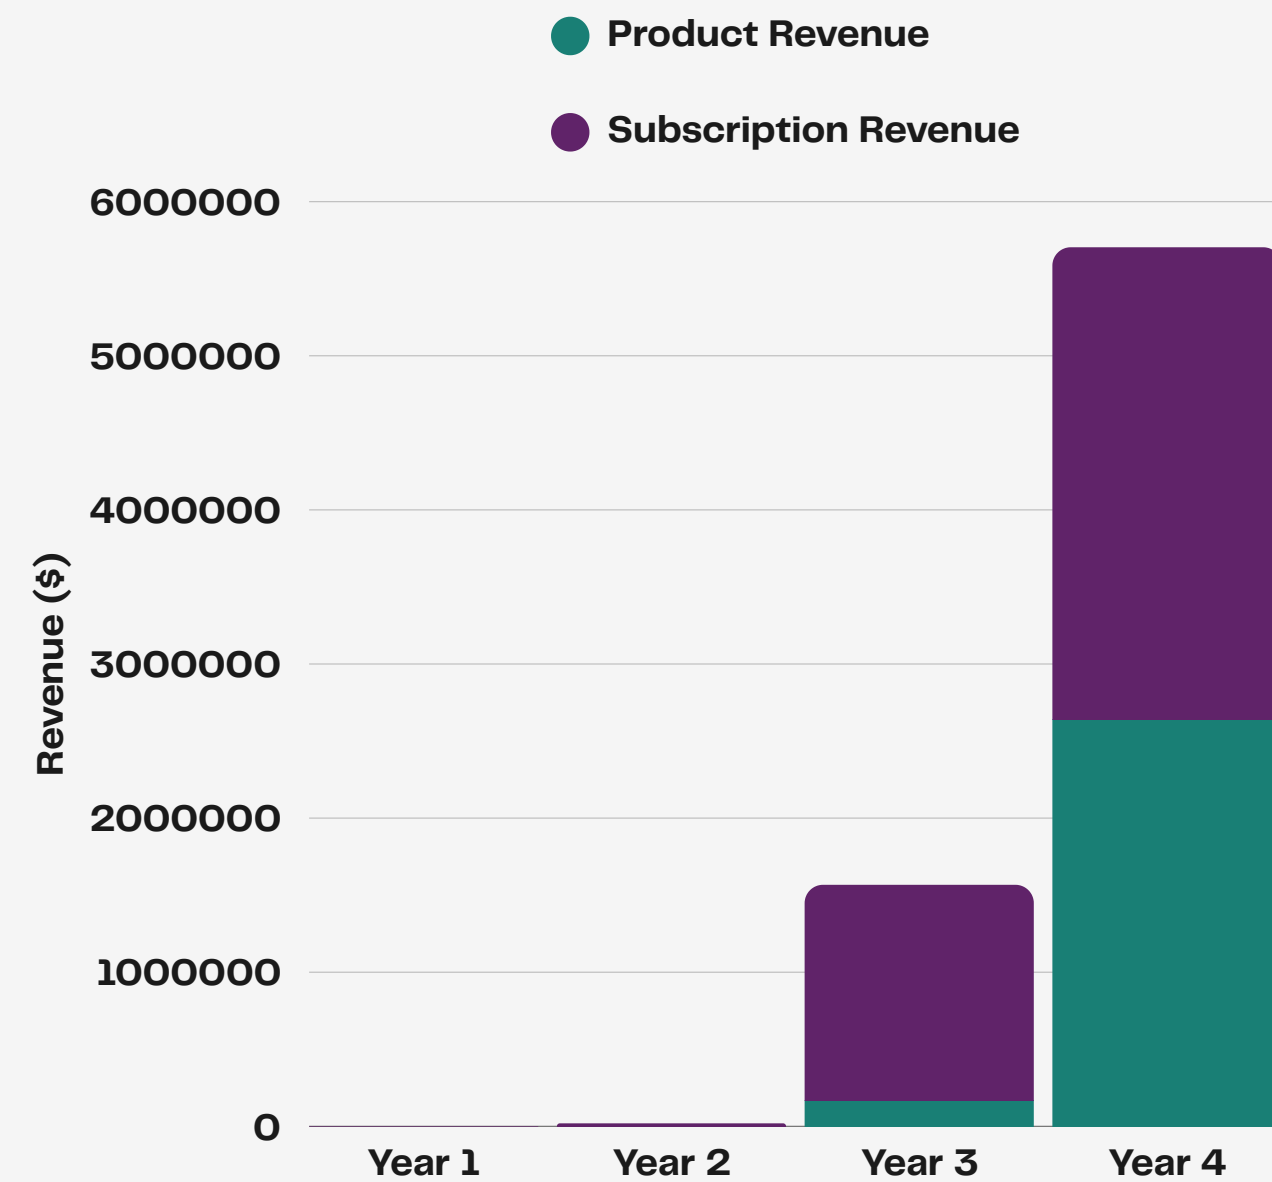

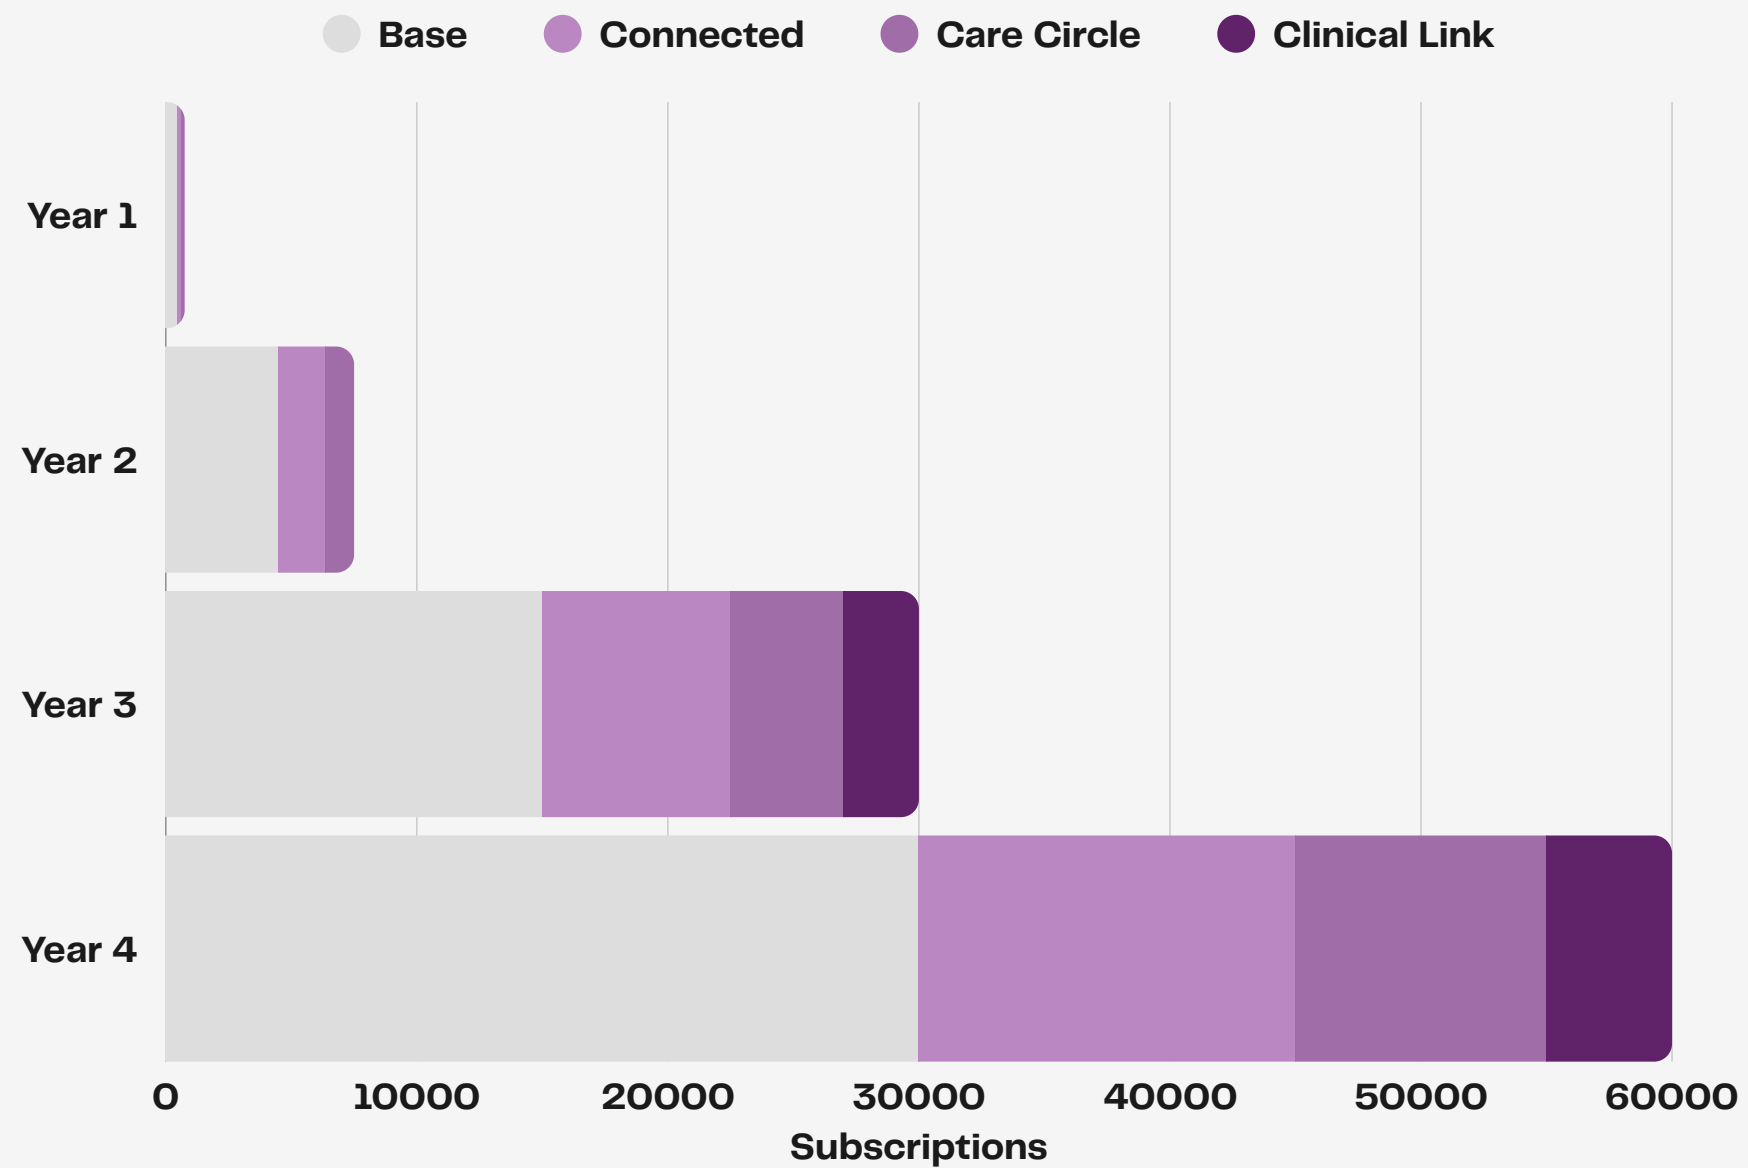

Activities

- Formal research & data studies
- pitching integration with EMRs/payor platform
- expanding escalation services for clinicians

Revenue Streams

- Per-member-per-month contracts with payers
- tiered DTC subscriptions

Projections

Projected to be profitable in Y3

Stay healthy at home

Avoid unnecessary,
expensive hospital visits
and keep connected to
those who care

We're asking for \$250K for 10% equity to scale production, expand our app ecosystem, and grow our subscription base.
