

Think on a time when...

You tried to give
to others with an
empty cup.

How did it make you feel?

What was the result?

98% of teachers feel undervalued by society.

Our findings show that more than two years after the pandemic, and in the midst of **rising inflation**, teachers are **burned out**, **struggling to provide** their students with school supplies, and **considering leaving the profession**.

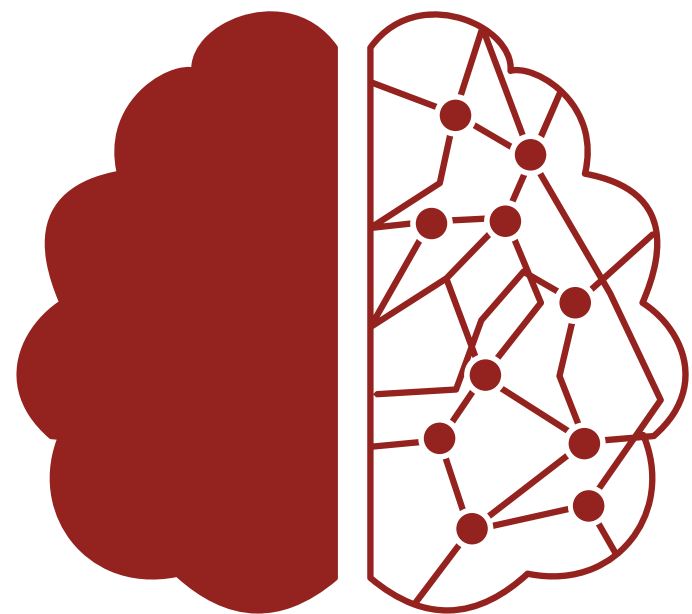

3/4 of teachers experience **frequent job-related stress**.

70% of schools have more **absenteeism** for students and teachers.

81% of teachers feel their overall **workload has increased**.

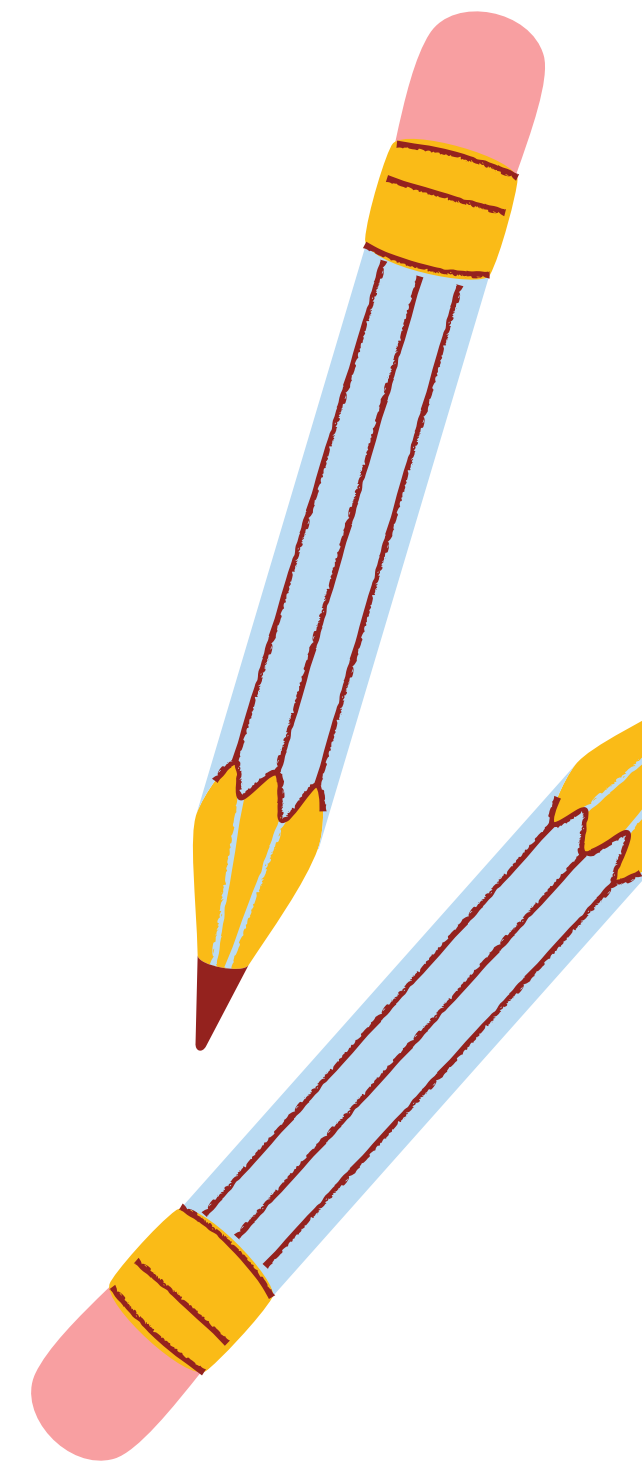

80% of teachers are spending more time **addressing students' mental health**.

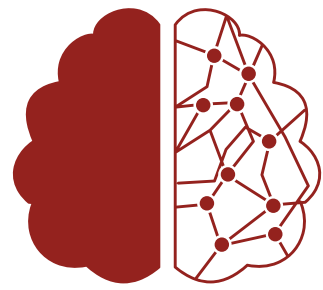

WellnessWorks

Prioritizing the Mental Health of Middle School Teachers

Samantha Kinard | Business in Design | Final Presentation

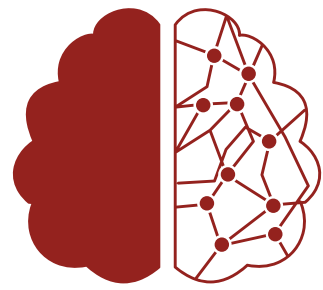

WellnessWorks

Why? How? What?

Non-profit consisting of **psychologists, anthropologists, ethnographers, therapists, philosophers, design researchers and service designers.**

Educating and training middle school teachers on **diverse and effective** ways to **think about, approach and manage mental wellness**

To begin approaching the mental health of students, **we must first address the mental health of teachers.**

WellnessWorks

The Value

Drive down
absentee rates

Improve the concentration, energy level, dependability, mental ability, optimism, performance and **happiness** of teachers.

Lower turnover
for teachers

Tackle **pressing present-day challenges** around mental health and set up **future generations** for more success.

"When one teaches, two learn."

WellnessWorks

 - Sharing stories from qualitative research
 - Emerging technology or resources for mental wellness

WellnessWorks

February 2, 2023

A new federal bill with bipartisan support **calls for improved mental health support for educators** as teachers, principals, and school staff members continue to struggle with depression, burnout, and stress. The bill would **authorize funding and establish more resources to help teachers, principals, and other school staff members with mental health challenges like stress, anxiety, and depression.**

Call to Action for our Investors

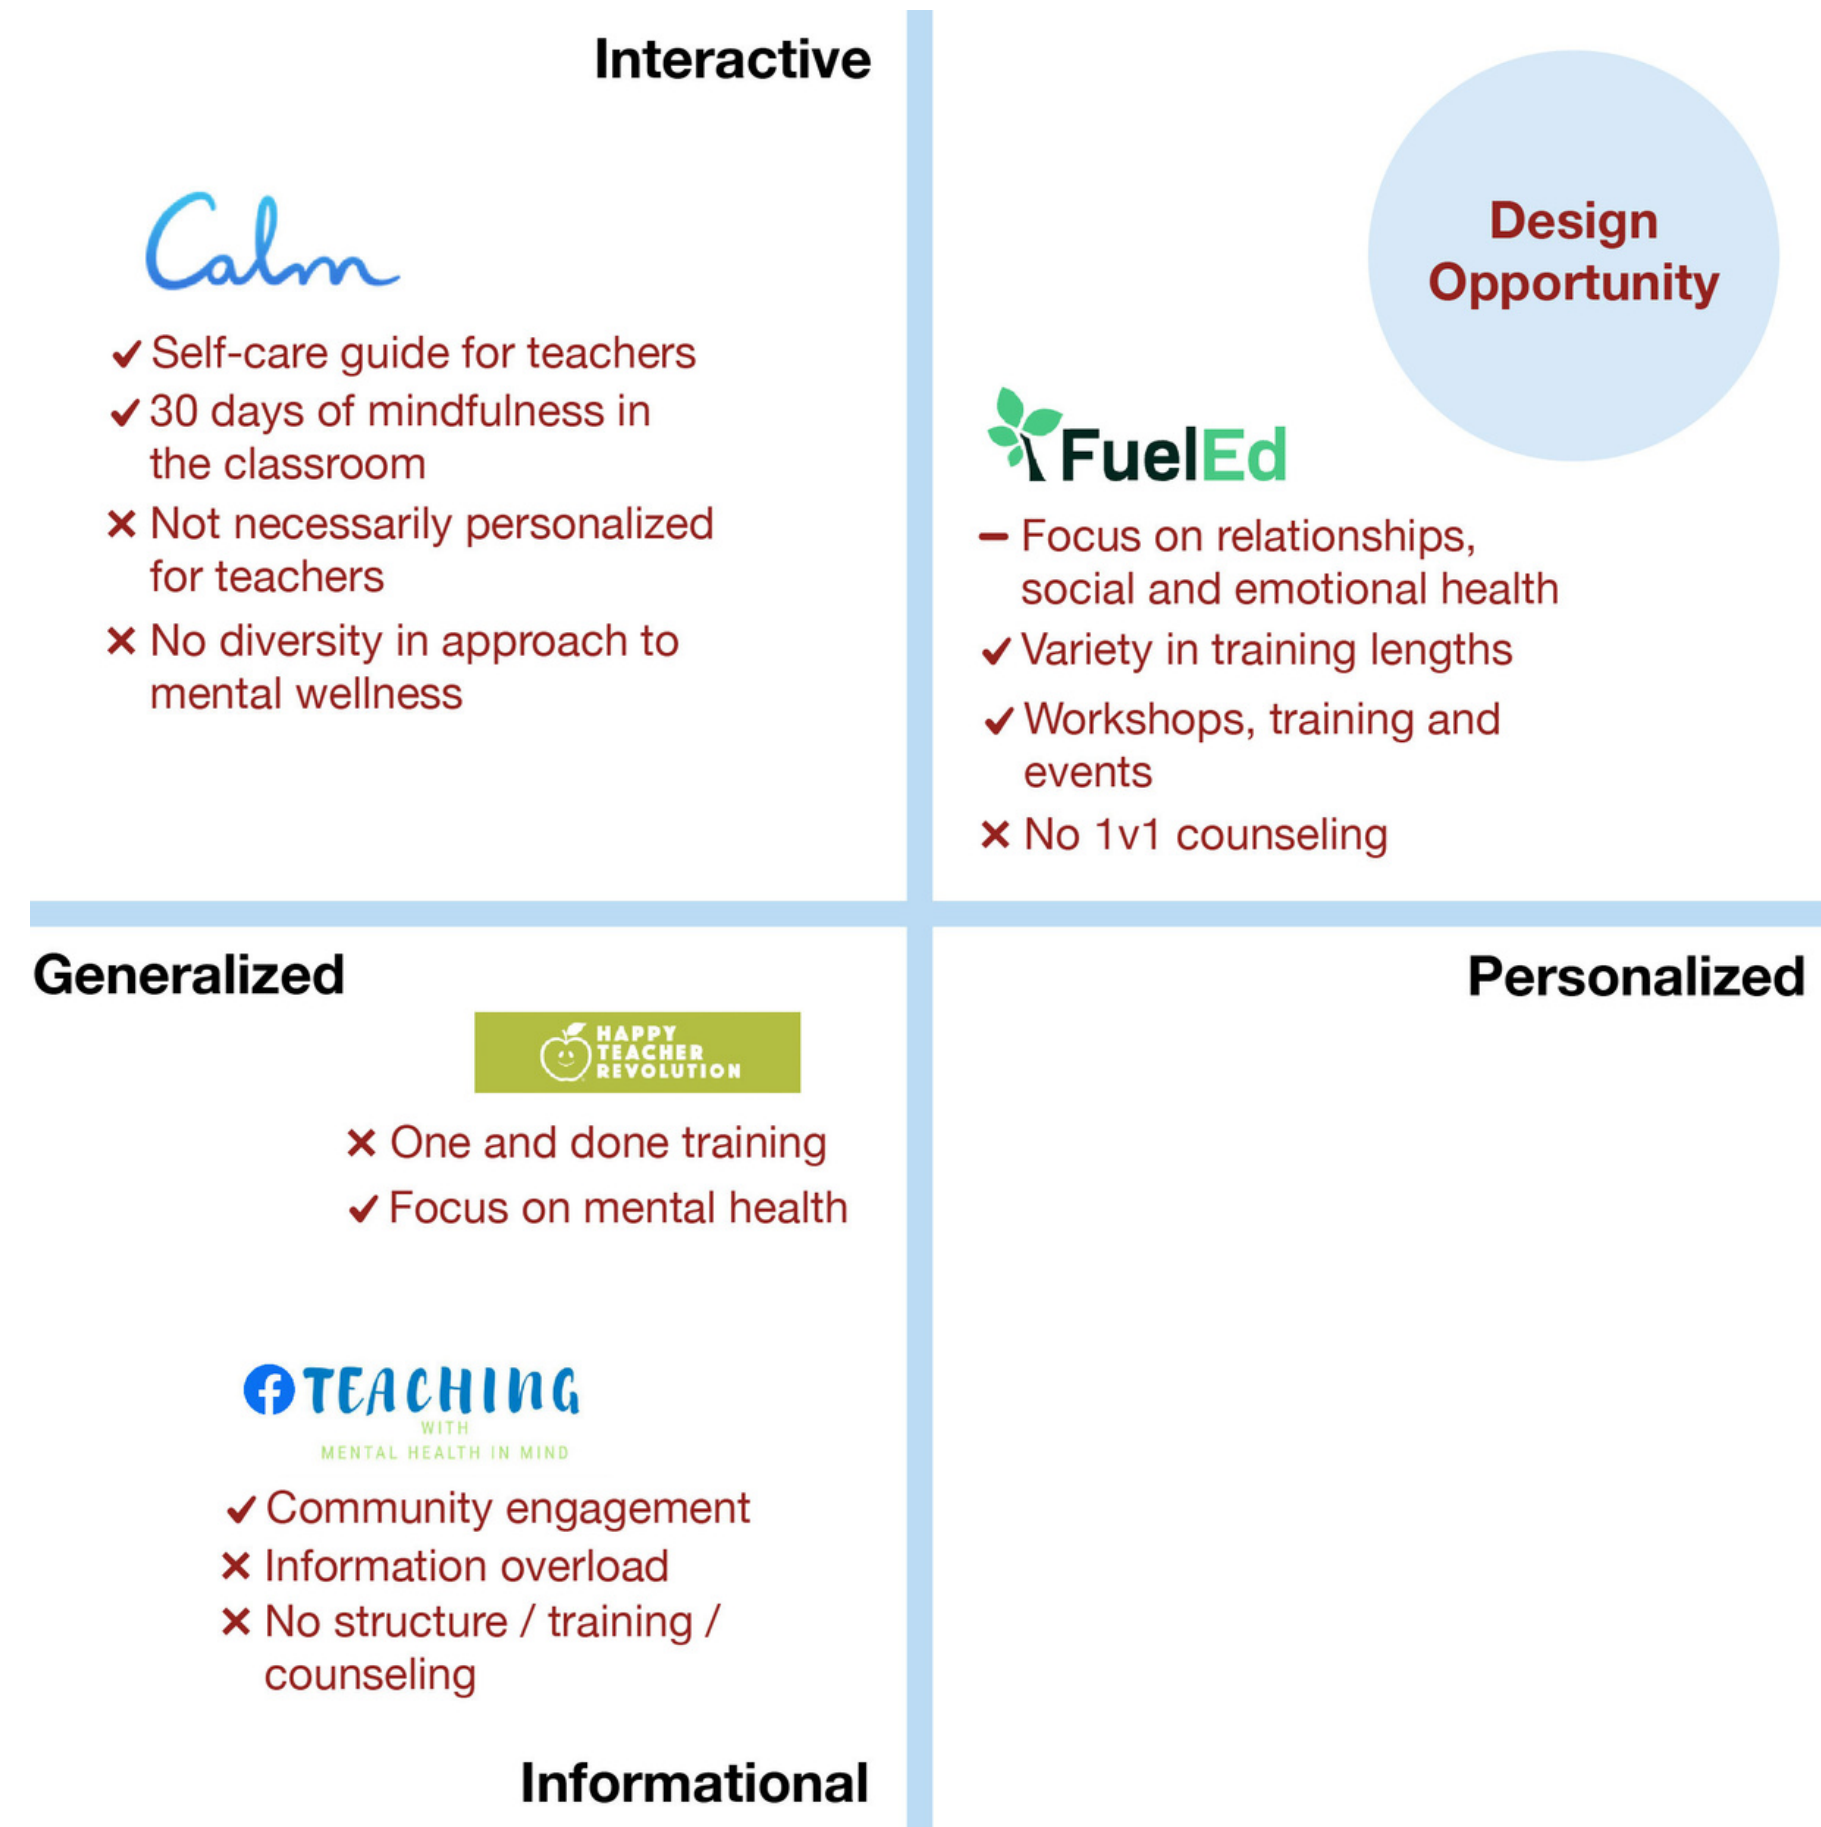

WellnessWorks

Competitive Landscape

There is an opportunity
for a platform that is more
personalized and interactive.

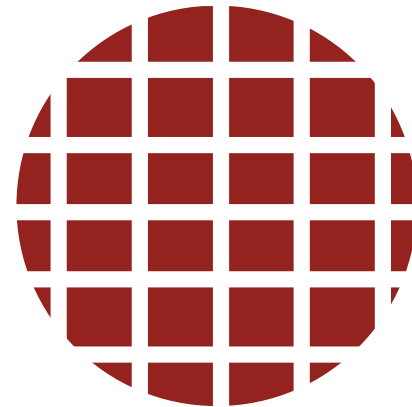

Provide **individual support** for teachers through counseling. We **co-create** with them to address their needs.

Heavily backed by a **continuous stream of research**
